PROFESSIONAL SUMMARY

Software engineering leader with 13+ years of experience building enterprise and ERP solutions using C#, ASP.NET Core, Web API, and SQL Server. Leads a textile IT development team, designs scalable data solutions, and mentors developers on architecture and coding standards. Uses Agentic AI and AI-assisted prompt coding to improve analysis, development, debugging, and documentation.

TECHNICAL SKILLS

AI Engineering: Agentic AI concepts, AI workflow design, prompt engineering, AI-assisted prompt coding, developer productivity
Backend: C#, ASP.NET Core, Web API, Agentic AI, ASP.NET MVC, Blazor, LINQ, EF Core, Dapper, microservices, Clean Architecture, Repository Pattern
Frontend: JavaScript, jQuery, AJAX, Vue.js 3, Bootstrap, HTML, CSS, Telerik Kendo UI, Syncfusion, EasyUI
Database: SQL Server 2019 and 2022, database design, stored procedures, views, functions, query tuning, MongoDB, MySQL
Reporting and Tools: RDLC, iTextSharp, EPPlus, AmCharts, Google Charts, ApexCharts, Git, SVN, TFS, Visual Studio

PROFESSIONAL EXPERIENCE

Assistant Manager and Team Lead — Feb 2022 - Present
Epyllion Group | Dhaka, Bangladesh

- Lead an eight-member textile IT team delivering ERP modules and business-critical operational support.
- Translate user and business requirements into database designs, application workflows, APIs, and maintainable technical solutions.
- Mentor developers on coding standards, solution architecture, project structure, database practices, and code review.
- Develop and optimize ASP.NET Core services, RESTful APIs, SQL Server stored procedures, and data-intensive ERP features.

Full Stack Software Developer — Apr 2018 - Feb 2022
Ha-Meem Group | Dhaka, Bangladesh

- Developed business applications from requirements and database design through implementation, deployment support, and enhancement.
- Built new modules and improved existing systems using ASP.NET Core, jQuery, and Microsoft SQL Server.

Full Stack Software Developer — Oct 2016 - Apr 2017
Samurai System Limited | Dhaka, Bangladesh

- Developed web application features and APIs with ASP.NET Core MVC and Microsoft SQL Server.

Full Stack Software Developer — Sep 2014 - Sep 2016
Infocrat Solutions Limited | Dhaka, Bangladesh

- Developed and supported modules for Akij Textile ERP and accounting applications using ASP.NET MVC, jQuery, and SQL Server.

Software Developer — Oct 2013 - Aug 2014
JadeWits Technologies Limited | Dhaka, Bangladesh

- Developed and maintained web application features using ASP.NET MVC, JavaScript, and SQL Server.

SELECTED PROJECT EXPERIENCE

Textile ERP - enterprise operations and supply-chain workflows

- Implemented Free Concept, BDS, material requirements, knitting programs, yarn operations, recipes, batch, finishing, bulk and projection booking, job cards, quality control, purchase requisitions, and purchase orders.
- Delivered database-intensive workflows, dashboards, approvals, inventory movement, and operational reporting across textile processes.

Garments ERP - merchandising, procurement, and booking

- Built features for master styles, buyer costing, purchase orders, booking costing and BOM, accessories demand, RFQ, quotation receipt, comparative statements, fabric booking, and accessories booking.

Production Management System - sewing and finishing operations

- Developed hourly production and line-defect entry, motion and process tracking, sample requisitions, challan, and cutting workflows.

Akij Textile Mills ERP - commercial, weaving, spinning, and TNA

- Commercial: Proforma invoices, letters of credit, and bill operations.
- Weaving: Fabric creation, execution and delivery orders, challans, returns and transfers, machines, production, fabric QC, patterns, and dashboards.
- Spinning: Production, delivery programs, challans, production planning, machine configuration, and vehicle configuration.
- Time and Action: Module-based notification setup, scheduled alerts, operational notifications, and client-specific PDF and Excel reports.

Inventory Management System - warehouse and transaction management

- Managed warehouse, customer, supplier, inventory, order, invoice, and billing workflows.

Accounts - core accounting and financial reporting

- Implemented account heads, multiple voucher types, voucher copying and automation, general and journal statements, balance sheets, and trial balances.

Service Management System - department-based service operations

- Created role-specific dashboards, notifications, messaging, email with attachments and logs, and date-based chart reporting.

EDUCATION

Bachelor of Science in Computer Science and Engineering **2010 - 2013**
Ahsanullah University of Science and Technology | Dhaka, Bangladesh

- CGPA: 3.22 out of 4.00

Higher Secondary Certificate in Science **2009**
National Ideal College | Dhaka, Bangladesh

- GPA: 4.80 out of 5.00

Secondary School Certificate in Science **2007**
Faizur Rahman Ideal Institute | Dhaka, Bangladesh

- GPA: 5.00 out of 5.00

TRAINING

Object Oriented Programming in ASP.NET Track | BASIS | 2012 | Two months

KNOWLEDGE SHARING

Maintains a programming-focused YouTube channel with 10,000+ subscribers, sharing practical software development knowledge. youtube.com/c/ThumbIKR/videos
